

Does your child often feel anxious?

Do you feel that your child behaves differently from others who are the same age?

Are you thinking that your child may need extra support, but you're not sure or don't know what's available?

If you have answered 'yes' and would like to discuss this further then please join us on **Monday 4th July at 2.30pm.**

Debs, and Alison from Place2Be will be available to chat with you and can offer:

- **Advice** for how best to support your child and where to get extra help
- **Support** for you and your child
- **Reassurance** that the support you are giving is the right support

This is an informal session to help. If you are interested please let me know. If you can't make this date then Debs is available at other times.
